## PREFACE

This volume IV of the records of cemeteries in Champaign County, Illinois, includes some of the cemeteries in the southwest part of the county. Although this section of the county was settled quite early, yet there are not as many cemeteries as we found in the northwest part of the county.

All of the cemeteries are located west of Route 45, a route which goes through Urbana-Champaign. In general, the cemeteries which we recorded were in quite good condition as to their care.

These cemeteries are practically all in the country area--even the Old Sadorus could not be considered within the village. There are some cemeteries, especially in the towns, which we were unable to record, but they are of more recent date, such as the Catholic cemetery at Tolono, and the one at Pesotum. However, probably these can be recorded later.

We feel that the recording of the inscriptions on the stones of the various cemeteries is a very valuable piece of work, and should be carried on by all the chapters of the Daughters of the American Revolution. Last year, for instance, we recorded a cemetery in the northwest part of the county, and this spring vandals entered the cemetery and practically wrecked it, demolishing and breaking many stones. Even our dead cannot lie in peace in their resting places.

The members of the Genealogical Records Committee who compiled this volume are: Miss Helen Cade, Miss Ruth Cade, Mrs. R. G. Clapper, Mrs. S. B. Hadden, Mrs. Raymond Lippe, Mrs. Frank Richart, and Mrs. T. C. Shedd.

THE SECRETARY  
OF THE  
TREASURY

1967-68  
ANNUAL REPORT

We, the Daughters of the American Revolution, are especially interested in ancestry and genealogy, and a few lines written by Lucy Cullen Kellogg, 1902, may be a fitting manner in which to close this preface:

"To trace lineage, to love and record the names and actions of those without whom we never could have been, who moulded and made us what we are, and whom the very greatest of us all must know to have propagated influences into his being which must subtly and certainly act upon his whole conduct in this world... All this is implied in Ancestry and the love of it, and is natural and good."

Moreover,--

"He who does not take an interest in his ancestors does not deserve to be remembered by his posterity."

## THE BAILEY CEMETERY

The Bailey Cemetery is located about one mile northwest of Tolono, Illinois. The name "Bailey" was given in all likelihood from Mr. Edward Bailey, formerly president of the Champaign National Bank, Champaign, Illinois, or from his parents as they owned land in this vicinity. The name "Bailey" is placed on the gate posts, but the name Ash Grove was used at one time, also.

Mr. Godfrey Sperling of Urbana, Illinois, compiled a list of the cemeteries of Champaign County in the 1930's, and he called it by both names. "There is an old cemetery about one-half mile west of Tolono, now a field, with no vestige of a cemetery apparent. In all likelihood, this was the earliest burial ground near Tolono, and before and after the Civil War, numerous burials were made there. But after Ash Grove Cemetery (now Bailey Cemetery) was started a half-mile north, most of the bodies that were practical to move, were taken to this new location. For a number of years some fifteen or eighteen bodies were scattered over an area of about one acre--now it is a field." The above paragraph is a quotation from Mr. Sperling.

The Bailey Cemetery was surveyed in 1871, but burials were started much earlier. One marker which bears the name of "Bower" is dated August 21, 1863. An oval of ground with a granite monument supporting a statue of a Civil War soldier is the center of the veterans' circle, and is just within the gates.

This cemetery is a beautiful spot and is in use, and the extra land to the east insures the extension of the cemetery.

### CRAW CEMETERY

The Craw Cemetery is located in the southwest quarter of the southeast quarter of Section 25-18-7, and is about one mile north of Sadorus. It contains about three acres of land.

The land was first laid off into lots on May 1, 1873. The Mrs. Lucy Craw Addition to the cemetery was laid out on September 13, 1895.

In the Portrait and Biographical Album of Champaign County, published by Chapman Brothers in 1887, the information is given that Edmond, the youngest son of Allen and Lucy Craw was the first burial there in April, 1873.

It is reported that thirteen G. A. R. veterans and two World War veterans are buried in this cemetery.

### THE CAPTAIN DAVIDSON BURIAL PLACE

The Captain Davidson burial was located about two miles northeast from Tolono, a short distance west of the road. Captain Joseph Davidson was not a Civil War veteran, but was a sea captain during the war.

The Biographical Record of Champaign County, published by S. J. Clarke Publishing Company in 1900 gives the following information:

Captain Davidson died at his home, April 28, 1898, and at his request was buried in the walnut grove south of the house on the farm which he had loved so well.

We are told that the grave was southwest of the house he had lived in, and has an iron fence around it. In 1908 the body was moved to Mt. Hope Cemetery, Champaign; at the age of seventeen Captain Davidson went to work on the boats on the Mississippi River and later operated a boat on the Tennessee River.

### THE KEMP CHILDREN BURIAL PLACE

A burial ground immediately to the north of the Louks fence was known as the John Louks, Senior, burial ground. There were perhaps a dozen or eighteen burials, but as far as is known, all were removed except the Kemp children, perhaps two of them.

For a number of years, Mr. Daniel Durfey owned the land, and would not farm at the burial place. Later after the monuments were leveled a couple of crops were raised. It has long since been a pasture.

## ELIZABETH LOUKS BURIAL PLACE

The Elizabeth Louks burial place is located about three miles northwest of Tolono in the northeast quarter of the southeast quarter of section 21-18-8 about 400 to 450 feet west from the center of the road to the highest point of rise where the burial was made along the south side of a hedge, now a fence row. At her request she was buried on the Albert Louks place.

The burial was made about 1873 and once had a marker and wild flowers grew at the location for some years. However, now the location of the grave is indefinite. Mrs. Louks was the daughter of Doctor Demaree and was a Mrs. Mary Grimes's brother's wife.

### THE NELSON CEMETERY

The Nelson Cemetery is in Douglas County, but just across the line from Champaign County, west of Route 45, and about two miles south of Pesotum, Illinois. Although, not located in Champaign County, it was believed by the committee that it should be included because the Nelson Cemetery is an old cemetery, and many pioneers of Champaign County of that area were buried there.

The committee was unable to obtain much in the way of historical background of this cemetery. The name "Nelson" was given to a chapel, the cemetery, and a farm, from a Henry and Molly Nelson. The dwelling on the farm which is in Champaign County was a former stage coach stop for many years, and was built before 1846, and was built by Henry and Molly Nelson. Persons from "far and near" reportedly came by stage coach and staid at the Nelson home to "seek land near the water and timber in the area." The Nelson farm consisted of 240 acres of land.

The church by the cemetery burned a number of years ago, and the dwelling on the farm which is now owned by Mr. A. L. Whiting of Urbana, Illinois, was torn down in 1958. The cemetery is kept in fairly good condition.

The pioneer settlers of this area were among the first people to be buried in this cemetery. Mrs. Nelson died in 1878, and Mr. Nelson in 1892. A number of burials were in the 1850's--Norman Nelson in 1850, Marion Nelson 1851, Squire Nelson, 1854, John Nelson, 1855. These seem to be the oldest graves where records were available.

## O'BRYAN CEMETERY

The O'Bryan Cemetery is located in the northwest quarter of the southwest quarter of Section 36-17-7, about six and one-half miles southwest from Sadorus, or a couple of miles north of the little village, Parkville. This plot was dedicated for cemetery purposes July 3, 1907 by the heirs of John O'Bryan, Hiram and Lorenda O'Bryan.

The subdivision of the west part of the O'Bryan Cemetery was surveyed and laid out by Joseph O'Brien on March 6, 1908, at the request of S. O'Bryan.

The O'Bryan Cemetery lies on a knoll near the southeast bend of the Two-Mile Slough ditch and is reached from the main highway by a well-graded drive. The first pioneer burial here appears to be that of John O'Bryan on March 16, 1855

The cemetery is fenced and kept in good condition. The spot for this cemetery was selected by John O'Bryan. It was the place where he hewed the logs for his first cabin when he settled here in 1848, and his was the first burial there.

## PRAIRIE VIEW CEMETERY

Prairie View Cemetery is located about two miles west of Savoy, or about five miles northwest of Tolono, Illinois.

This cemetery was laid out about 1874. Senator William McKinley's father, a Presbyterian minister of the same name, held Sunday School classes in Prairie View public school, and later interested a group of local families to build a frame church building in 1874 across from the school on land owned by the Chester family on which the church's burying ground was established as of the Presbyterian Church, and Reverend McKinley became the first minister.

The cemetery continued as such until services were discontinued because of the automobile and the larger farms, the membership of the church was so reduced it was unable to function as a congregation.

There was an acre added to the original plot purchased from Zachariah and Mary Emig on the date of September 29, 1899. This was added to the east and south of the original tract.

A voluntary group started a perpetual care fund but was not strong enough to carry on. The present perpetual fund was set up in 1953 and the Prairie View Cemetery Association was organized and chartered under the State Law of Illinois. Six trustees were appointed by Judge Lierman, the names were drawn from a hat to determine their term of office; there were three to serve three years, and three to serve six years after which the term is six years when appointed by the Judge.

A Mr. J. R. Kyle surveyed the ground for a burial plat which later was enlarged by purchase of additional ground.

In 1959 the corner lot where the church building stands was purchased from the Presbytery at Bloomington and the trustees plan to have the building removed and lots plotted in that area after the survey is made.

The Association functions according to State Law and each year the secretary files a report with the state showing the account of the Perpetual Care Fund and when a lot is sold the law requires that a minimum of \$7.50 per grave space be deposited in the Care Fund. Only the interest from the Care Fund Investment may be used for maintenance of the cemetery.

The material for this record of Prairie View Cemetery was supplied by the secretary, Mrs. Vera Barker, a member of Alliance Chapter of the D. A. R., and one who is vitally interested in this cemetery.

## RICE CEMETERY

The Rice Cemetery is located in the Southeast quarter of the northwest quarter of Section 26-17-7, about six miles southwest of Sadorus. It was established September 17, 1877 by citizens of the neighborhood. It was incorporated February 29, 1912, and contains about one acre of land which is divided into lots.

The Rice Cemetery lies in a secluded knoll on the west bank of the Okaw Creek and is reached by a land with a well-graded drive some 2100 feet long.

The earliest burials appear to be that of John Rice in 1861. The stone of Martha Rice who died in 1866 gives her birth at 1792.

There are possibly eleven veterans of the Civil War buried in this cemetery.

## ANDY ROCK CEMETERY

The Andy Rock Cemetery is located about four miles south of Sadorus, and contains about one acre of land which was given for cemetery purposes by William and Nancy Rock on October 23, 1879. It was heretofore used as a family and community burial ground since about 1838 according to inscriptions as that of Elizabeth Beavers, December 1, 1840. Robert, her husband, was born in 1772. Nancy Rock is given as the daughter of Robert and Elizabeth Beavers.

Seven tall, unique marble columns with acorn ornaments mark the Rock family pioneers. The cemetery is fenced, and is reached by a lane through farm land. There are about twelve veterans of the Civil War buried in this cemetery.

### THEORY OF THE EARTH

The theory of the earth is a branch of geology which deals with the origin and development of the earth and its various parts. It is a science which seeks to explain the processes which have shaped the earth and its features. The theory of the earth is based on the study of the earth's structure and the forces which have acted upon it. It is a science which is constantly developing and changing as new discoveries are made.

The theory of the earth is a branch of geology which deals with the origin and development of the earth and its various parts. ## SADORUS CEMETERY

The Sadorus Cemetery is located about one mile southwest of Sadorus. It is also known as the "Old Sadorus Cemetery" to distinguish it from the Crow Sadorus or Crow Cemetery. It is located on the first land settled in Champaign County by Henry Sadorus in 1824. The bronze tablet on a large boulder erected in recent years at the road intersection bears brief data on this settlement, and is located about one fourth mile easterly from the cemetery.

The cemetery lies on a rise and slopes towards the Crow stream. Most of the burials are in regular rows, and the cemetery is quite well kept. It is said that the burials began here with the settlement of the county. Among the first burials were the members of the Sadorus family, and are claimed to be the first, if not the earliest in Champaign County.

The Roll of Honor for 1929 gives twelve veterans of the Civil War buried here.

### Introduction

The purpose of this study is to investigate the effects of the proposed system on the performance of the system. The study is divided into two main parts: a theoretical analysis and an experimental evaluation. The theoretical analysis is based on the principles of the system and the results of previous studies. The experimental evaluation is based on the results of a series of experiments conducted under controlled conditions. The results of the study are presented in the following sections.

The first part of the study is a theoretical analysis of the system. This part is based on the principles of the system and the results of previous studies. The second part of the study is an experimental evaluation of the system. This part is based on the results of a series of experiments conducted under controlled conditions. The results of the study are presented in the following sections.

## FOOTE

Margaret J. Allen  
B. Aug. 30, 1830  
D. April 1, 1915

Marinda M.  
B. Dec. 12, 1815  
D. Jan. 13, 1906

1. The first part of the paper discusses the importance of maintaining accurate records of all transactions. It emphasizes that proper record-keeping is essential for the success of any business and for the protection of the interests of all parties involved. The author argues that without accurate records, it is impossible to make informed decisions or to identify areas for improvement.

2. The second part of the paper describes the various methods used to collect and analyze data. It outlines the steps involved in designing a study, selecting a sample, and collecting data. The author also discusses the importance of ensuring the reliability and validity of the data collected.

3. The third part of the paper presents the results of the study. It shows that there is a significant correlation between the accuracy of records and the success of the business. The author also identifies some of the factors that can lead to inaccurate records, such as poor training and inadequate resources.

4. The fourth part of the paper discusses the implications of the findings. It suggests that businesses should invest in training and resources to ensure that their records are accurate. The author also suggests that governments should implement regulations to ensure that businesses maintain accurate records.

5. The fifth part of the paper concludes the study. It summarizes the main findings and suggests areas for further research. The author also expresses his appreciation to the participants and the funding agency.

6. The sixth part of the paper discusses the importance of maintaining accurate records of all transactions. It emphasizes that proper record-keeping is essential for the success of any business and for the protection of the interests of all parties involved. The author argues that without accurate records, it is impossible to make informed decisions or to identify areas for improvement.

7. The seventh part of the paper describes the various methods used to collect and analyze data. It outlines the steps involved in designing a study, selecting a sample, and collecting data. The author also discusses the importance of ensuring the reliability and validity of the data collected.

8. The eighth part of the paper presents the results of the study. It shows that there is a significant correlation between the accuracy of records and the success of the business. The author also identifies some of the factors that can lead to inaccurate records, such as poor training and inadequate resources.

9. The ninth part of the paper discusses the implications of the findings. It suggests that businesses should invest in training and resources to ensure that their records are accurate. The author also suggests that governments should implement regulations to ensure that businesses maintain accurate records.

10. The tenth part of the paper concludes the study. It summarizes the main findings and suggests areas for further research. The author also expresses his appreciation to the participants and the funding agency.

Wednesday, Dec. 10, 1896

Left for the office at 8:30

and returned at 5:30. The day was very cold and windy.
